

## CONTENTS.

<u>Personnel of the Institute of Phonetics</u> .....	V
<u>Introduction</u> .....	1
<u>Instrumental Equipment of the Laboratory</u> .....	5
<u>Lectures and Courses in 1966</u> .....	8
<u>Reports on Constructional Work</u> .....	10
The Respiration Corset (Børge Frøkjær-Jensen).....	10
Heterodyne Filter (Jørgen Rischel).....	13
Instrumentation for Vowel Synthesis (Jørgen Rischel)....	15
<u>Reports on Physiological and Acoustical Analyses of Speech</u> ....	22
Preliminary Experiments with the Fabre Glottograph (Eli Fischer-Jørgensen, Børge Frøkjær-Jensen and Jørgen Rischel).....	22
Phonetic Analysis of Danish Stop Consonants (Eli Fischer- Jørgensen).....	31
The Danish Long Vowels (Børge Frøkjær-Jensen).....	34
Changes in Formant Frequencies and Formant Levels at High Voice Effort (Børge Frøkjær-Jensen).....	47
Studies of the Prosodic Properties of Danish Words (Jørgen Rischel).....	55
Studies of Diphthongs in Faroese (Jørgen Rischel).....	56
Murmured (Breathy) Vowels in Gujrati (Eli Fischer- Jørgensen).....	57
Analyses of French Accent (Børge Spang-Thomsen).....	58
Features of the Acoustical and Physiological Structure of the French Nasal Vowels (Ole Kongsdal Jensen).....	59
Voice Assimilation of Stop Consonants and Fricatives in French and its Relation to Sound Duration and Intra- oral Air-pressure (Oluf M. Thorsen).....	67
Acoustic Analysis of Tense and Lax Vowels in German (Hans Peter Jørgensen).....	77
Research on the Physiological Correlate to the two Vowel Types in German (W. W. Schuhmacher).....	85

<u>Reports on Analyses of Speech Perception</u> .....	87
Perceptual Dimensions of Speech Sounds (Eli Fischer- Jørgensen).....	87
Experiments with Sharp Filtering of Danish and German Vowels (Eli Fischer-Jørgensen and Jørgen Rischel)....	89
Auditory Investigation of German Tense and Lax Vowels (Eli Fischer-Jørgensen).....	91
<u>Publications by Staff Members and Guests</u> .....	93
