1942

For the present the place names of Greenland are being revised. The Northwest Greenland place names have not yet been treated by the Committee on Name-giving, and there is therefore some disagreement in the application of the Danish and English words for geographical features. According to the new principles adopted such features should be given in Danish, thus

Bugt for Bay,  
Kap for Cape,  
Ø for Island,  
Halvø for Peninsula,  
Bredning for Gulf,  
Elv or Flod for River,  
Bjærg or Fjæld for Mountain,  
Sund for Sound,  
Dal for Valley, etc.
