About the monographic series *Meddelelser om Grønland*

Meddelelser om Grønland, which is Danish for *Monographs on Greenland*, has published scientific results from all fields of research in Greenland since 1879. *Meddelelser om Grønland* is published by the Commission for Scientific Research in Greenland, Denmark.

Since 1979 each publication is assigned to one of the three subseries:

- *Man & Society*
- *Geoscience*
- *Bioscience*

Geoscience invites papers that contribute significantly to studies in Greenland within any of the fields of geoscience (physical geography, oceanography, glaciology, general geology, sedimentology, mineralogy, petrology, palaeontology, stratigraphy, tectonics, geophysics, geochemistry).
