

## SITE INDEX

The specific names of sites are listed for castles, churches, monasteries, towns, and well-known find localities. The name of the relevant county, district, or region according to the map following the index is always listed, except when the paper deals with a larger area. General surveys may be found under SURVEY in the Subject index.

Outside the Nordic area, the name of the country is listed, as are well-known find localities and sites.

A guide to the alphabetical order is given in the Author index.
