

## SITE INDEX

The specific names of sites are listed for castles, churches, monasteries, towns, and well-known find localities. The name of the relevant country, district, or region according to the maps is always listed, except when the paper deals with a larger area. Regional names introduced later than 1974 are marked with and are thus not used in all volumes of NAA. General surveys may be found under **SURVEY** in the **Subject index**.

Outside the Nordic area, the name of the country is listed, as are well-known find localities and sites.

A guide to the alphabetical order is given in the **Author index**.
