

## SUBJECT INDEX

In order to simplify the use of the index, the detail entries have been grouped under main entries as far as possible, for example **Plough** under **Agriculture**. In most cases reference is given from a detail entry to the main heading.

In the concise abstracts all important subjects cannot always be mentioned; consequently some entries in the index will not be found in the corresponding abstract but refer to the original publication.

*General surveys* and *general catalogues* are not mentioned in all relevant entries (*Graves, Weapons, etc.*); they are to be found under **SURVEYS** and **CATALOGUES**.
