

tions of determining the economic effectiveness of capital investments. *M. Solodkov*, On productive labor under socialism. *Y. Kvasha & V. Krasovskii*, The capital output ratio and reserves for reducing it. *G. Khudokormov*, Utilization of the law of value in planning procurement prices for collective farm produce. *I. Krasnov*, Power systems and their role in the development of productive forces. *A. Yefimov*, New standards for amortization of fixed capital.

Vol. 2, No. 10, February 1960: *P. Malyshev*, Differential land rent under socialism — a scientific conference at Moscow University. *S. Partigul*, Demand and supply under socialism. *D. Oparin*, Quantitative relationships in the models of expanded reproduction. *A. Smirnov*, Provision for differences between prices and values in compiling the balance sheet of the national economy. *A. Buzan*, Determining rates of obsolescence under socialism. *V. Belkin*, Economic calculations with the aid of electronic computers. *L. Meshchaninov*, The relation between the rates of increase of labor productivity and wages. *M. Milaganov*, Problems of adjusting the remuneration of labor of personnel employed in non-productive fields. *Fundamentals* of labor law of the USSR and the Constituent Republics: A draft. *V. Zoloev*, USSR foreign trade indicators. *A. Kats*, On the question of the so-called income "revolution" in the USA.

Vol. 2, No. 11, March 1960: *A. I. Boiarskii*, On the theory of games as a theory of economic behavior. *I. K. Smirnov*, A contribution to the economic appraisal of land in a socialist society. *A. Kuchko*, Railway electrification during the seven-year plan. *V. Batyrev*, Some theoretical and practical problems of credit in the USSR. *A. Bachurin*, Problems of profitability of industrial enterprises. *M. Lifits*, Certain questions of commodity circulation in the USSR at the present stage. *R. Nazarov*, The increasing level and changing structure of food consumption in the USSR. *T. Zaslavskaya*, Economic conditions for introduction of money payment for labor of collective farmers. *A. Evreiskov*, Present-day inflation and some bourgeois economic conceptions. *M. Golanskii*, Methods employed to recalculate the national income of the USA.

Vol. 2, No. 12, April 1960: *A. Emelianov, A. Tolkachov*, Methodological problems in determining the economic effectiveness of production mechanization and automation. *T. Khachaturov*, Economic effectiveness of integrated mechanization and automation. *V. Dadaian*, Mathematical methods are coming into use in economics. *M. F. Solodnikov*, Costs of production in local industry and problems of pricing. *V. Lazarev, N. Merkulov*, Reserves available for development of the fuel industry. *E. Budagova*, The problem of the withering away of the collective farmer's personal farm plot. *I. Oblomskia*, Concerning the enterprise fund. *E. Antosenkov, V. Moskalenko*, The Soviet Union's program of reducing the working day and the working week. *I. Pisarev*, The use of social funds in public consumption. *R. Entov*, Growth of the US National debt. *I. V. Aleshina*, A modern bourgeois textbook of political economy. *A. Frumkin*, The insolvency of bourgeois trade theory.

Vol. 3, No. 1, May 1960: *L. Kantorovich*, On the calculation of production inputs. *V. Kozlov*, Some theoretical problems of national economic effectiveness of utilization of machines. *G. Anisimov*, The motive forces of technological progress in the USSR at its present stage of development. *V. Garbuzov*, A budget that assures the Soviet Union's economic and cultural progress. *A. Strukov*, Problems of accumulation and consumption in the seven-year plan. *S. Kheinman*, Some economic problems in industrial engineering. *I. Feigin*, On the study of the current problems of territorial distribution of productive forces. *E. Varga*, Twentieth century capitalism. KB.

#### THE QUARTERLY JOURNAL OF ECONOMICS

Vol. 74, No. 1, February 1960: *J. W. Angell*, Uncertainty, likelihoods and investment decisions. *S. A. Ozga*, Imperfect markets through lack of knowledge. *K. Mivazawa*, Foreign trade multiplier, input-output analysis and the consumption function. *R. E. Baldwin*, The effect of tariffs on international and domestic prices. *C. E. Ferguson*, On theories of acceleration and growth. *R. G. James*, The casual labor problem in Indian manufacturing. *H. M. Oliver jr.*, German neoliberalism.

Vol. 74, No. 2, May 1960: *F. D. Holzman*, Soviet inflationary pressures, 1928-1957: Causes and cures. *A. Smithies*, Productivity, real wages, and economic growth. *F. H. Hahn*, The stability of growth equilibrium. *R. A. Mundell*, The monetary dynamics of international adjustment under fixed and flexible exchange rates. *D. R. Hodgman*, Credit risk and credit rationing. *G. S. Tolley & V. S. Hastings*, Optimal water allocation: The North Platte River. *H. M. Levinson*, Pattern Bargaining: A case study of the automobile workers. *R. Clower*, Keynes and the classics: A dynamical perspective.

Vol. 74, No. 3, August 1960: *R. A. Young & C. A. Yager*, The economics of "bills preferably". *C. B. Hoover*, Employment growth and price levels: A review article. *P. Taft*, The responses of the bakers, longshoremen and teamsters to public exposure. *A. H. Cole*, A note on social overhead and a dynamic analysis of industry. *D. W. Jorgenson*, Growth and fluctuations: A causal interpretation. *J. Weissman*, Is oligopoly illegal? A jurisprudential approach. *M. J. Beckmann*, Some aspects of returns to scale in business administration. *M. J. Gordon*, Security and a financial theory of investment. KB-HB-Å.

#### THE REVIEW OF ECONOMIC STUDIES

Vol. 27 (2), No. 73, February 1960: *P. Newman*, Complete ordering and revealed preference. *L. L. Pasinetti*, A mathematical formulation of the Ricardian system. *B. Thalberg*, The market for investment goods. An analysis where time of delivery enters explicitly. *H. Atsumi*, Mr. Kaldor's theory of income distribution. *J. Tobin*, Towards a general Kaldorian theory of distribution. *N. Kaldor*, A rejoinder to Mr. Atsumi and Professor Tobin. *H. Myint*, The demand approach to economic development. *R. D. Theoharis*, On the stability of the Cournot solution on the oligopoly problem. *H. J. Jaksch*, A regular input-output model with decreasing marginal returns.

Vol. 27 (3), No. 74, June 1960: *L. L. Johnson*, The theory of hedging and speculation in commodity futures. *M. K. Richter*, Cardinal utility, portfolio selection and taxation. *R. Findlay*, Economic growth and the distributive shares. *N. Kaldor*, A rejoinder to Mr. Findlay. *H. Uzawa*, Walras' tatonnement in the theory of exchange. *M. Morishima*, On the three Hicksian laws of comparative statics. *P. Newman*, A supplementary note on complete ordering and revealed preference. *C. L. Lloyd*, The equivalence of the liquidity preference and loanable funds theories and the new stock-flow analysis. *G. C. Archibald*, Testing marginal productivity theory.

Vol. 27 (3), No. 74, June 1960: *L. L. Johnson*, The theory of hedging and speculation in commodity futures. *M. K. Richter*, Cardinal utility, portfolio selection and taxation. *R. Findlay*, Economic growth and the distributive shares. *N. Kaldor*, A rejoinder to Mr. Findlay. *H. Uzawa*, Walras' atonement in the theory of exchange. *M. Morishima*, On the three Hicksian laws of comparative statics. *P. Newman*, A supplementary note on complete ordering and revealed preference. *C. L. Lloyd*, The equivalence of the liquidity preference and loanable funds theories and the new stock-flow analysis. *G. C. Archibald*, Testing marginal productivity theory. KB-HB-Å.

#### THE REVIEW OF ECONOMICS AND STATISTICS

Vol. 42, No. 1, February 1960: *Y. Grundfeld & Z. Griliches*, Is aggregation necessarily bad? *N. Kaldor*, The Radcliffe report. *J. Mincer*, Employment and consumption. *S. W. Rousseas*, Velocity changes and the effectiveness of monetary policy, 1951-57. *G. W. Wilson*, The relationship between output and employment. *J. Burtle*, Parametric maps of different types of economic development. *M. O. Clement*, The quantitative impact of automatic stabilizers. *E. E. Hagen*, Some facts about income levels and income growth. *M. L. Burstein*, The economics of tie-in sales. *R. E. Jones*, Depreciation and the dampening effect of income changes. *P. T. Moore*, The World Bank and its economic missions. *H. Neisser & E. Grosswald*, Gross capital stock and net capital stock: The simplest case.

Vol. 42, No. 2, May 1960: *F. Machlup*, Another view of cost-push and demand-pull inflation. *C. D. Long*, The illusion of wage rigidity: Long and short cycles in wages and labor costs. *H. Menderhausen*, The terms of Soviet-Satellite trade: A broadened analysis. *J. D. Phillips*, Labor's share and "wage parity". *S. Enke*, The gains to India from population control: Some money measures and incentive schemes. *B. F. Massell*, Capital formation and technological change in the United States manufacturing. *T. Mayer*, The distribution of ability and earnings. *H. L. Miller, jr.*, The demand for refrigerators: A statistical study. *S. Fujino*, Some aspects of inventory cycles. *A. A. Walters*, Expectations and the regression fallacy in estimating cost functions. KB-HB-Å.

#### REVUE D'ÉCONOMIQUE POLITIQUE

70e année, No. 1, Janvier-Février 1960: *A. Mey*, Le circuit économique et sa relation avec la théorie de la valeur et du calcul rationnel de l'économie industrielle. *A. Cotta*, Le déclin de la domination économique d'une nation. *J. Monteil*, Le gaspillage dans l'entreprise.

70e année, No. 2, Mars-Avril 1960: *F. Houillier*, Un maître de l'économie rurale: Pierre Fromont.
