

Revue Economique, Scottish Journal of Political Economy, Statsøkonomisk Tidsskrift og Zeitschrift für Nationalökonomie.

Efter hvert tidsskrift er angivet, på hvilke biblioteker tidsskriftet er tilgængeligt; følgende forkortelser er anvendt: Det kgl. bibliotek (KB), Handelshøjskolens bibliotek (HB), Statsbiblioteket og Århus universitets økonomiske institut (Å), Socialministeriets bibliotek (ArS), Arbejderbevægelsens arkiv og bibliotek (Ar), Folketingets bibliotek (Fo), Danmarks tekniske bibliotek (T) og Det amerikanske bibliotek (AL).

Oversigten er udarbejdet af bibliotekar ved Det kgl. Bibliotek, cand. polit. *Knud Erik Svendsen*.

#### THE AMERICAN ECONOMIC REVIEW

Vol. 50, No. 1, March 1960: *A. F. Burns*, Progress towards economic stability (Presidential address to the American Economic Association). *F. D. Holzman*, Inflation: Cost-push and demand-pull. *R. A. Kessel & A. A. Alchian*, The inflation-induced lag of wages. *R. A. Mundell*, The pure theory of international trade. *T. Sowell*, Marx's "increasing misery" doctrine.

Vol. 50, No. 2, May 1960: Papers and proceedings of the Seventy-second annual meeting of the American Economic Association, December 28-30, 1950.

Vol. 50, No. 3, June 1960: *N. M. Kaplan & R. H. Moorsteen*, An index of Soviet industrial output. *G. H. Borts*, The equalization of returns and regional economic growth. *J. M. Henderson*, Monetary reserves and credit control. *M. E. Kreinin*, The "outer-seven" and European integration. *S. Enke*, Western development of a sparsely populated country: The Rhodesias. *J. V. Yance*, A model of price flexibility. *A. A. Walters*, The allocation of joint costs with demands as probability distributions.

#### ECONOMETRICA

Vol. 28, No. 1, January 1960: *R. Eisner*, A distributed lag investment function. *G. B. Dantzig*, On the significance of solving linear programming problems with some integer variables. *T. Kloek & L. B. M. Mennes*, Simultaneous equations estimation based on principal components of predetermined variables. *H. S. Houthakker*, The capacity method of quadratic programming. *A. Ghosh*, Input-output analysis with substantially independent groups of industries. *R. L. Basmann*, On the asymptotic distribution of generalized linear estimations. *G. H. Borts*, The estimation of rail cost functions. *M. Nerlove*, The market demand for durable goods: A comment.

Vol. 28, No. 2, April 1960: An issue in honor of Ragnar Frisch. *A. J. Cowles*, Ragnar Frisch and the founding of the econometric society. *K. J. Arrow*, The work of Ragnar Frisch, econometrician. *J. S. Chipman*, The foundations of utility. *N. Georgescu-Roegen*, Mathematical proofs of the breakdown of capitalism. *H. S. Houthakker*, Additive preferences. *L. Johansen*, Rules of thumb for the expansion of industries in a process of economic growth. *L. R. Klein*, Some theoretical issues in the measurement of capacity. *T. C. Koopmans*, Stationary ordinal utility and impatience. *O. Lange*, The output-investment ratio and input-output analysis. *P. C. Mahalanobis*, A method of fragile graphical analysis. *M. Morishima*, Economic expansion and the interest rate in generalized von Neumann models. *P. Norregaard Rasmussen*, A short note on the transmission of shocks in simultaneous models. *P. A. Samuelson*, An extension of the LeChatelier principle. *E. Schneider*, Hans von Mangoldt on price theory: A contribution to the history of mathematical economics. *R. M. Solow*, On a family of lag distributions. *R. Stone & D. A. Rowe*, The durability of consumers' goods. - A triptych on causal systems: I. *R. H. Strotz & H. O. A. Wold*, Recursive vs. nonrecursive systems. II. *R. H. Strotz*, Interdependence as a specification error. III. *H. O. A. Wold*, A generalization of a causal chain models. *H. Theil*, Best linear index numbers of prices and quantities. *J. Tinbergen*, Optimum savings and utility maximization over time. *G. Tintner*, A note on stochastic linear programming.
