Kongres om økonomi og kultur

A three day international conference on »cultural economics and planning« will be held in 1982 on May 26 to 28 in Holland. The conference will be developed by the Boekmanfoundation and the Ministry of Cultural Affairs of the Netherlands in co-operation with the Association for Cultural Economics and the Cultural and Leisure unit, Center for Urban Studies, the University of Akron (USA).

The conference aims to provide a forum for academic economists working in cultural studies. Also economists engaged in policy-making in the cultural field are invited to participate in the conference.

We are looking for scholars and practitioners who want to prepare a paper in English for the conference.

Papers will reflect the latest state of research on a subject in the field of »Economics and Culture«. Most likely one of the main subjects of the conference will be »Arts in the City«.

Abstracts of papers are requested to be sent to the secretary of the conference before September 15 th, 1981.

Those who want to be discussants of papers and those who want to attend, are invited to write to the secretary of the conference: Jaap van Straalen, Boekmanfoundation, Herengracht 415, 1017 BP Amsterdam, The Netherlands.
