

Quick Submit i OJS 3

For at påbegynde en 'Quick Submit' skal du i venstremenuen vælge linket 'Værktøjer' > 'Importér/Eksportér' ('Tools' > 'Import/Export'). På den fremkomne side vælger du linket 'QuickSubmit Plug-in'

The screenshot shows the OJS 3 administration interface. The top navigation bar includes 'OJS på dansk', 'Opgaver 126', 'Dansk', 'Se website', and 'admin'. The left sidebar contains a menu with 'Værktøjer' circled in red. The main content area is titled 'Værktøjer' and has two tabs: 'Importér/Eksportér' (selected) and 'Statistikker'. A 'Hjælp' button is visible in the top right of the main area. The list of tools includes:

- [DOAJ Eksport-plug-in](#): Eksporter tidsskrift til DOAJ
- [Native XML-plug-in](#): Importer og eksporter artikler og numre i OJS' eget XML-format.
- [CrossRef XML Eksport Plug-in](#): Eksportér artikelmetadata i CrossRef XML format.
- [Bruger XML Plug-in](#): Importer og eksporter brugere
- [PubMed XML Eksport-plug-in](#): Eksporter artikel-metadata i PubMed XML format til indekssering i MEDLINE.
- [DataCite Eksport/Registrerings Plug-in](#): Ekporter eller registrer metadata fra numre, artikler, satsskib og supplerende fil i DataCite- format.
- [QuickSubmit Plug-in](#): Ettrins-manuskriptindleverings-plugin
- [mEDRA Eksport/Registrerings-plug-in](#): Ekportér metadata fra nummer, artikel og satsskib i Onix til DOI (O4DOI)-format med mEDRA registreringsagentur.

Herved fremkommer QuickSubmit-siden hvor al metadata indskrives og manuskriptfilen hentes ind. Denne side minder i store træk om den tilsvarende side i OJS 2-udgaven. Bemærk dog at feltet, hvor man uploader manuskriptet nu er placeret længere nede på siden med linket Add galley/Tilføj publiceringsversion

Submission Metadata
These specifications are based on the Dublin Core metadata set, an international standard used to describe journal content.

Under List of Contributors/Liste over bidragydere klikkes på linket Add Contributor/Tilføj bidragyder, hvorved en ny side popper op. På denne indsætter du forfatternavn mm.

Under Galleys/Publiceringsversioner aktiverer du linket Add galley/Tilføj publiceringsversion, hvorefter du kan uploade dit manuskript. Dernæst klikker du på 'Save'

Type

The submission type is usually one of 'image', 'text', or other multimedia types including 'software' or 'interactive'. Please choose the one most relevant for your submission. Examples may be found at <http://dublincore.org/documents/2001/04/12/usageguide/generic.shtml#type>

Du får nu to valgmuligheder, enten kan du påbegynde en ny QuickSubmit, eller du kan gå til Submission/Indsendelser

The screenshot displays the OJS admin interface. At the top left, it says "OJS på dansk" with a dropdown arrow. Next to it is a "Tasks" notification with a "0" icon. On the top right, there are links for "English", "View Site", and a user profile for "admin".

The main content area has a grey header that says "Article Added". Below this, the text reads "Article creation was successful." followed by two blue links: "Return to QuickSubmit plugin." and "Go to Submission". The "Go to Submission" link is circled in red.

The left sidebar contains a dark blue menu with the following items: "Submissions", "Issues", "Payments", "Settings", "Users & Roles", and "Tools".

Her vælges Go to Submission/Gå til Indsendelser, hvorved du når frem til produktionssiden. Såfremt du endnu ikke har oprettet det nummer, som manuskriptet skal lægges i, skal dette gøres, inden du klikker på knappen Schedule For Publication/Planlæg publicering. Herefter kan du lægge manuskriptet i det ønskede nummer via Schedule For Publication/Planlæg publicering

Såfremt du ønsker at lægge manuskriptfilen i et allerede oprettet nummer – det gælder såvel fremtidige som tidligere numre – skal du markere knappen 'Published/Publiceret' hvorefter du allerede på QuickSubmit-siden får mulighed for at vælge nummer og tilføje de nødvendige oplysninger.
