Back issues – Tidligere numre

Hvordan undgår man, at få en forkert numerisk/kronologisk rækkefølge i arkivoversigten?

Et eksempel på forkert rækkefølge i arkivoversigten. Hvordan udbedres dette?

Test7

En korrekt numerisk rækkefølge i kolonnen 'Issue' fremkommer kun hvis publiceringsdatoerne i kolonnen 'Published' (1) er sat i den rette kronologiske rækkefølge.

Det seneste nummer skal således have den seneste publiceringdato og så fremdeles. Hvis de tidligere numre ikke er blevet publiceret i den numerisk rigtige rækkefølge skal publiceringsdatoen tilrettes i hver enkelt nummer. Dette gøres ved at klikke på det enkelte issue-link (2)

Til trods for op- og ned-pilene i kolonnen 'Order' kan man ikke via pilefunktionen sikre den korrekte rækkefølge med 100% sikkerhed. Specielt har problemer vist sig, når antallet af tidligere numre kommer over 25 og flere sider optræder (her side 1 og 2). Derfor skal man fokusere på kolonnen 'Published', eller..

.. du kan nøjes med at samle alle dine Back Issues på én side. OJS er forudindstillet til at placere op til 25 numre pr. side, men som Journal Manager kan du under Setup – The Look – 5.8 Lists vælge et antal svarende til alle dine Back Issues, så de samles på én side, og her vil du kunne bruge pilene til at få placeret dem i korrekt rækkefølge.

5.8 Lists

Items per page

Page links

Enter the maximum number of items (for example, submissions, users, or editing assignments) that appear on each page of a list, and the number of pages links to display on each page.

Save and continue

Cancel

Problemet vil ifølge PKP/OJS blive løst i en kommende udgave af OJS.
