

Bibliography of Scandinavian Political Science for 1967-68

This bibliography has been compiled in accordance with the principles followed in earlier volumes of *Scandinavian Political Studies*. It includes: (1) publications of native and foreign authors printed in Denmark, Finland, Norway and Sweden, (2) publications of Scandinavian authors printed in other countries, and (3) publications dealing with the Scandinavian countries regardless of where they have been published. The bibliography includes books, contributions to joint works and periodicals, as well as committee reports and other government papers which make a contribution to less explored areas of political science. Reviews of books have here been entered under the respective books. Only those reviews which have appeared in periodicals have been listed here.

As in earlier bibliographies, the individual country entries have been compiled and classified in the respective countries: in Denmark by H. P. CLAUSEN and Peter HANSEN, in Finland by Rauno LEHTINEN and Pentti PÄRSSINEN, and in Sweden by Anders MELLBOURN. Yours truly has been responsible for the editing of the bibliography as well as for the collection and classification of the Norwegian contributions. The individual country contributors have attempted to achieve a high degree of conformity in the collection and classification of the respective country entries by following as closely as possible the principles adhered to in the International Bibliography of Political Science printed by UNESCO.

We would like to express our thanks to our country collaborators in Denmark, Finland and Sweden, to Professor Stein ROKKAN and to the present editors.
