

Bibliography of Scandinavian Political Science for 1970

The following bibliography is a review of Scandinavian political science for 1970. It is a continuation of earlier bibliographies in Scandinavian Political Studies and therefore, an attempt has been made to include earlier publications omitted in previous volumes. We have included:

- 1) publications of native and foreign authors printed in Denmark, Finland, Norway and Sweden,
- 2) publications by Scandinavian authors printed in other countries, and
- 3) other publications, which deal with different aspects of Scandinavian political life.

The bibliography includes books, contributions to joint works and periodicals, as well as committee reports and other official government documents which make a contribution to less explored areas of political science in Scandinavia. Reviews appearing in periodicals are listed under the appropriate book, article etc.

The entries in this bibliography have been compiled and classified in their respective countries: in Denmark by Lone MÖRUP and Ib FAURBY, in Finland by Rauno LEHTINEN, in Sweden by Gunnar LÖNNQUIST and Anders MELLBOURN. The undersigned is responsible for the collection and classification of the Norwegian contribution and for the final editing of the bibliography. The individual national editors have sought to maintain a high degree of uniformity in the classification of entries by following as closely as possible the classification scheme used in the International Bibliography of Political Science published by UNESCO.

We would like to thank our national editors in Denmark, Finland, and Sweden for a job well done and also extend our thanks to Erik DAMGAARD and Stein ROKKAN for their support.
