

# Bibliography of Scandinavian Political Science: 1973

This bibliography is a review of political science literature in Scandinavia for 1973. It is a continuation of earlier bibliographies printed in *Scandinavian Political Studies*, and therefore an attempt has been made to include publications omitted in earlier volumes. We have included:

- (1) publications by native and foreign authors printed in Denmark, Finland, Norway, and Sweden,
- (2) publications by Scandinavian authors printed in other countries, and
- (3) foreign publications dealing with different aspects of Scandinavian political life.

The bibliography includes references to books, contributions to joint works and periodicals, as well as official reports and government documents containing information, not otherwise available, on major areas of Scandinavian political life. Reviews printed in periodicals are included in connection with their appropriate book, article, etc.

The entries in this bibliography have been collected and classified in their respective countries: in Denmark by Ole Hafstrøm, in Finland by Liisa Pirkkola, in Norway by Kirsti Sælen and in Sweden by Svante Hansson and Anders Mellbourn. The undersigned is responsible for the final classification and editing of the bibliography. We have sought to attain a high degree of unanimity between the national contributions by following as closely as possible the classification scheme of the International Bibliography of Political Science published by UNESCO.

We would like to express our thanks to our national editors in Denmark, Finland, Norway, and Sweden and also to Jan Petter Myklebust and Esther Nilsen for their much-needed assistance.
