

# Author instructions for submitting papers to the Torture Journal through the online submissions platform

### Background:

The Torture Journal has moved to an online submissions platform, which is a central repository where the work flow of author submissions, peer-review and publishing is centrally managed. The Torture Journal therefore requires that all articles are submitted on the new platform. Authors may also message the Torture Journal Editorial Team within the platform itself. Instructions for submitting new articles are below. If you have any technical challenges, please do not hesitate to contact Editorial Assistant Harry Shepherd at hsh@irct.org

## Step-by-step instructions:
